

### ALCUNE OPINIONI DELL' ON GIOLITTI

Quanto Avrebbe Dichiarato al Corrispondente dell' Associated Press in Lucerna

ferenza avuta con Lloyd George, parlan- do con il rappresentante dell'Associated Press ha dichiarato di essere con- vinto che l'Italia entro la guerra aveva fatto il suo dovere e che invece doveva attendere di entrare nello stesso tempo degli Stati Uniti. Disse pure che era d'accordo con l'opinione di Kitchener il quale diceva che la guerra doveva essere lunga e terribile, ma egli pensa lo Stato Maggiore era invece convinto che sarebbe finita entro pochissimi anni dall'inizio dell'Italia.

Ciò che accusa di aver sompatizzato per la Germania, l'On. Giolitti dichiara che non fu mai germanofilo. Disse che l'aiuto economico e militare dell'America ha contribuito ad abbreviare la guerra.

Espresso, poi, la speranza di vedere subìto approvata dal Parlamento una legge che prevedeva a non ritenere validi alcuni trattati se non sia stato discusso ed approvato dal Parlamento, e che possa usarsi la diplomazia segreta. Espresso il desiderio di vedere subìto approvate delle misure perché

gli eccessivi profitti di guerra siano ritornati alle casse dello Stato.

L'On. Giolitti, inoltre, ha dichiarato che egli viene a Lucerna senza uno speciale programma, ma che lascia la città contento e felice per il risultato dell'incontro col Primo Ministro d'Inghilterra. Si disse anzitutto di incontrarsi con Millerand, nella metà di settembre, con la sincera speranza che le loro conversazioni contribuiranno ad aiutare la futura pace del mondo.

Londra, 25 agosto.—Il Primo Ministro Lloyd George, durante la sua conferenza a Lucerna con il Primo Ministro d'Italia, On. Giolitti, ha promesso che l'Inghilterra riconoscerà il nuovo Stato Libero di Fiume, come proposto da Gabriele D'Annunzio.

#### \$25,000 BOOZE SEIZURE

U. S. Agents Take Whisky Disguised as Household Goods

Danbury, Conn., Aug. 25.—(By A. P.)—Six federal agents halted a motor-truck between Norwalk and this city late yesterday, seized ten barrels of grain alcohol, valued at \$25,000, and arrested Heuben Katz, the driver, and Harry Snesell, both of New York. They were brought here and locked up in default of bonds. The same officers also arrested yesterday Joseph Cowan, of Litchfield, who had eleven bottles of whisky in his automobile. He furnished a bond of \$500. The three men are to appear today before United States Commissioner Cable here.

The truck was a closed moving van,

arranged to have the appearance of a load of household goods, with a bed spring fastened at the rear. The driver showed a permit to carry alcohol, but the agents claim it is counterfeit.

Venezelos Recovers From Wounds

Paris, Aug. 25.—(By A. P.)—Premier Venezelos, of Greece, who was murdered by two young Greeks in this city on August 12, left last night for Athens. He has completely recovered.

\$30,000 Fire at Allentown

Allentown, Pa., Aug. 25.—Fire last night swept the local plant of Swift & Co., entailing a loss of approximately \$30,000.

#### Four Explosions Cause No Damage

Residents in the neighborhood of Twenty-fifth and Olive streets were alarmed last night when they heard four explosions. Investigation showed that gas escaping from a forge in the plant of the Davis & Schuster Co. had taken fire. There was no damage.

## THE STEELE IDEA

OF INDUSTRIAL CONSTRUCTION

The new plant of Commercial Truck Co. at 5th Street, Hunting Park Ave. and Rising Sun Ave. designed and now being built and equipped by Wm. Steele & Sons Co., according to the Steele Idea of Industrial Construction.

# Commercial Truck Co's new plant being built by Steele

WE designed and have already started building this huge new plant to take care of the enormous increase in business of the Commercial Truck Company. It will be of concrete and steel construction throughout and will be equipped with the most scientific, labor-saving machinery.

Commercial Truck Company has built another industrial leadership for Philadelphia. It has made Philadelphia known as the home of the electric truck, for the past fourteen years.

To quote from a statement by Mr. E. R. Whitney, President of Commercial Truck Company, is to make plain why Steele was chosen to design, build and equip their new plant. It explains why Steele is known as specialist in Philadelphia industrial construction:

"Despite the high cost of building at this time and the predictions of hard times ahead, we have an abiding faith in the future of this country and in the City of Philadelphia, and we have determined to go ahead with the construction of our new plant for the above reasons and as tangible evidence of our confidence in the future of the electric truck as the most economical mode of transportation within the legitimate field.

"A further motive to build at this time was a feeling of obligation to our many good customers.

"We are therefore going ahead as a guaranty to those who have put their confidence in us, that the equipment we have made for them would be properly backed up and continue to serve them for its full term of years, and which will be assured by the future stability of this company and with a properly designed and equipped plant and a new permanent home.

"Its increased and improved facilities will enable this Company to take its proper place among the industries which together make and maintain Philadelphia—'The Workshop of the World.'"

This statement is proof of our contention that Steele is chosen not merely to build industrial buildings of utmost efficiency, but to design, construct and equip plants that will increase production, reduce cost and be capable of expansion without a great deal of additional expense.

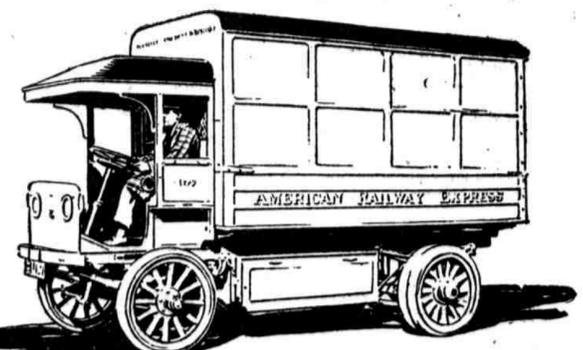

Knowing Philadelphia and knowing your industry thoroughly, Steele is able to look and plan ahead for your particular business. That's why Steele stands foremost as Philadelphia's industrial builder.

In our 56 years in business we have designed and built factories in Philadelphia in more than a hundred different lines of industry.

If you are a manufacturer thinking of building, adding to or rebuilding your factory, consult Steele first.

Hundreds of manufacturers who consulted Steele have benefited, why not you? Write for an interview. It does not obligate you in any way.

This is a reproduction of one of the fleet of 212 C-T Electric Trucks owned by American Railway Express. Other big commercial organizations are operating and installing these Philadelphia-made products of Commercial Truck Company.
